How the West Survives on the Blood of Muslims -

The fuel crisis that Britain is currently suffering from provides many real lessons for everyone. Such lessons include the reason for the determination and motivation of Western regimes like the US and Britain to bomb innocent civilians and the military capability of Iraq, the reason for the continued hegemony over Muslim land such as that of Saudi Arabia and Kuwait through the establishment of military bases and puppet leaders and the reason for the West's legitimisation of all this and its exploitation of Muslim resources through US sponsored illegitimate oppressive bodies such as OPEC, the UN, NATO, The world Bank etc?

The very real FACT is that without the resources with which Allah has blessed the Muslims, Western countries would be reduced to merely surviving as they once did rather than being boosted as the 'leading nations' by which they arrogantly pride themselves.

From the gas in Algeria which keeps the French warm in the winter, to the oil, gold and plutonium in the Middle East, the West is today fully dependent on substances in the hands of Muslims which has forced them to adopt a foreign policy to ensure subservient puppet leaders remain in power over Muslim land such as King Fahad, Husni Mubarak and Prime Minister Musharraf and anyone calling for the unity of Muslim land and resources under one leader (i.e. the Khilafah) or calling for the liberation of Muslim land from this rape by the West, are labelled a fundamentalist, a militant and an enemy to 'freedom' and 'democracy'!

The Petrol Retailers Association in Britain say that supplies of fuel could run dry within two days during the current crisis. After a short period when Britain would probably use up all its reserves the following consequences can be envisaged when the oil has completely run dry:

1. EMERGENCIES, There will be no emergency ambulance trips.
2. POST, Post will no longer be deliverable to its destination.
3. RUBBISH, Councils will stop domestic rubbish collections.
4. MEAT, Abattoirs will stop slaughtering animals.
5. SHOPS, Consumers will shop locally with few items on the shelves of shops.
6. PLANES, A lack of aviation fuel supplies will bring Airlines to a standstill.

7. RAW MATERIALS, Deliveries of raw materials will stop.
8. TRANSPORT, Diesel trains and buses will sit stranded in depots.
9. FRESH FOOD, Daily deliveries of fresh and non-perishable goods will stop.
10. HOSPITALS, Essential items will not reach hospitals and operations will be cancelled.
11. ANIMALS, Animals will not receive the fresh food they require.
12. INDUSTRY, Many Industries will not open because of staff shortage.

In addition with widespread unemployment we will see crime increase manifold leading to anarchy the police will not be able to control.

In a short time people will wonder how they ever managed to live without oil!

Even to this seemingly impossible situation Islam has provided mankind with a solution. The cause of the blockades being the price of fuel does not exist in Islam since the sayings of the Messenger Muhammad and the Qur'an make it clear that the people (Muslims and non-Muslims) are partners in things such as water, natural growth, salt, sand, grass, air, oil, Uranium etc? meaning that these things are every persons right to possess FREE of charge for their everyday usage. Unfortunately Islam is not being implemented anywhere in the world today after the destruction of the Islamic State by those very regimes which are today fighting with each other for what was once (under the Islamic State which existed from 622AD to 1924AD) each persons divine entitlement.

It is time that people living under the oppression of man made law (whether capitalism or communism) woke up and realised that were it not for the biggest industries in the West today exploiting the needs and instincts of human beings such as that of pornography, lottery, drugs and alcohol there would be enough revenue not only to provide the basic needs for ALL the citizens but also ample to be able to run the State without having to suck the blood of its citizens through taxes on everything from oil to death!

We therefore invite the non-Muslims to discover the supremacy of the Islamic law and order and we call upon the Muslims to understand how the policy of divide and rule adopted by the US-led West and its organs such as the UN must be fought to re-establish the Khilafah and rule by what Allah has revealed.

Uzbek President Says U.S. Ready to Help Wipe out Banned Islamic Movement

MOSCOW, Sep 13, 2000 — (RFE/RL) On his return from the UN Millennium Summit in New York, Islam Karimov told journalists that U.S. Secretary of State Madeleine Albright had assured him that Washington considers the banned Islamic Movement of Uzbekistan a terrorist organization, Interfax reported. The Russian agency quoted Karimov as saying Albright told him the U.S. is ready to offer political, moral, and, if necessary, material assistance to fight the militants. Source: **Russia Today**

Some 1.35 million Iraqi children died due to the sanctions

The sanctions imposed on Iraq has resulted in the death of 1.35 million Iraqi children while the number of women's deaths after delivery increased as well as number of handicapped- births.

“Khilafah is the only solution for humanity’s problems . . .”

This is a translation of an article that appeared in Urdu in the Jang Newspaper on Tuesday 29th August 2000.

In a conference organised by Members of Hizb ut-Tahrir in Britain in Birmingham, the following speakers delivered speeches: Saad Abdullah, Amaar Zalloom, Dr. Muhammad Nawaz, Dr. Imran Waheed and various other speakers. Birmingham (Abbas Malik, Jang Journalist) - Throughout the world man made systems such as Democracy and Military rule have failed and day by day the entire humanity is being plunged into many problems. In this current reality the only way forward is to return to the System given to us by our Lord, namely, the Khilafah System and this will lead the salvation of the entire humanity.

The attendance at this conference, numbering roughly 10,000 was from all major cities in Britain as well as people who came from all across Europe, the attendants included a large number of women as well. The conference started promptly at 1pm with the recitation of the Qur'an.

In the first part of the conference, one of the speakers included Saad Abdullah, a Member of Hizb ut-Tahrir from Lahore. In his speech he explained that Islam is not limited to the personal ibadaat and performing of individual good deeds, rather, it is a complete way of life, that provides solutions for all the problems faced in the international arena. The speaker stated that many groups are working for Islam but the most important duty for each and every Muslim is to work for the resumption of the Khilafah, since Allah (swt) and the Prophet of Allah (saw) placed a great deal of emphasis on this issue. He stated that it was through the implementation of the Khilafah 1400 years ago that Islam reached every corner of the world and the Muslim ummah was seen as a force to be reckoned. He continued by saying that as a result of not having the Khilafah today, the Muslim ummah despite being large in number, possessing abundant resources, vast amount of land and powerful armies, it is today very weak and dependent upon other nations.

Amaar Zalloom of Jordan stated that people have a misconception that since Hizb ut-Tahrir denounce all western man made systems, they must be calling for Dictatorship. He said the reality is that Hizb ut-Tahrir are calling for the Islamic Khilafah system and the appointment of a sincere Khaleef, this Khaleef has to submit to the Qur'an and Sunnah and he is elected by the ummah. The Khaleef has to obey all ahkam of Allah (swt) and is by no means a tyrant or a dictator.

Dr. Muhammad Nawaz who is a Professor in the Faculty of Law at Punjab University Lahore said, many people have questions about when and where will this Khilafah come. He said, as Muslims, it is an obligation upon us to continue to strive in delivering the message of Allah and carrying the da'wah with seriousness wherever we are. He said, perhaps the Khilafah will be established in any one of the countries where the work is going on or maybe another place may arise where people have desire for the return of the Khilafah. The important thing is that we must work relentlessly and with wisdom to carry the da'wah to every country, every town and every people. Dr Nawaz said that it our duty to make people aware of the teachings of Rasool Allah (saw), explain to people the detailed structure of the Khilafah and teach them the barakah of having the Khilafah system. He said, we must realise that the actual implementation of the Khilafah is totally in the hands of Allah (swt).

Dr Imran Waheed, who is a Member of Hizb ut-Tahrir from Britain said, the reason for the failure of all the existing systems is that they are based on greed, lowliness and cheating, as a result we see problems such as looting, corruption, tyranny and institutions such as IMF and World Bank who are exploiting the entire world for their own benefits. He said, these corrupt systems have become so strong hold that their removal requires a powerful state and that Hizb ut-Tahrir is working to establish this state by intellectual revival. The speaker said that our message is that people should listen to our message and try to understand the message and if they find the message to be the truth then come and work with us. Imran Waheed said that the work of Hizb ut-Tahrir is to approach the Muslims, we have no need for the western media to make advertisement for us. He said, infact the western media is always making false and baseless propaganda against Hizb ut-Tahrir. Furthermore, some groups and scholars who are working only for their own benefit make a point of attacking Hizb ut-Tahrir but we do not feel it necessary to answer such accusations as that will be wasting the time of Hizb ut-Tahrir.

During the conference there was a live link up from Jerusalem, where Imam Abu Abdullah a Member of Hizb ut-Tahrir based in Palestine congratulated the people at the conference. He said I am very happy to see that thousands of people in the West and Europe are becoming aware of and ardently working for the resumption of the Khilafah.

The conference attendants came from London, Manchester, Bradford, Glasgow, Edinburgh, High Wycombe, Luton, Leicester, Nottingham, Derby, Oxford, Stoke on Trent, Cardiff, Rochdale and various other places within Britain as well Europe. These attendants arrived in hundreds of coaches.
